

**Curriculum.** The curriculum includes love coaching, Tantric therapeutic processes, sexual healing skills for men and women, successful business dynamics and marketing techniques, hands-on demonstrations, practice, class handouts, lesson plans, and suggestions for a variety of other classes for individuals and small groups. It is only through experiencing a variety of educational home-play sessions in this healing art form that one can begin to grow to true mastery.

**Certification.** Graduates of this course will be given a beautiful certificate suitable for framing, which allows them to share beginning level Tantra with individuals, couples, and small groups. Graduating Level 1 does not certify you as a Source School of Tantra Yoga CTE® (Certified Tantra Educator). You must complete Levels 1 and 2 and all their requirements before you receive full certification. While attending Level 1 training does not guarantee the ability to successfully teach Tantra, it will provide a strong foundation for success in the future. We have trained over one hundred Level 3 instructors, who are now able to successfully market themselves as Dakini/Daka and Certified Tantra Educator (CTE). Several CTEs will be present during the training to share their wisdom, and path with you.

Tj Bartel, Resident Daka  
Leah Alchin, Resident Dakini  
Judith Shivani, Resident Body Therapist

**Requirements.** Level 1 CTE training requires giving and receiving a minimum of 4 healing sessions lasting between 100 and 150 minutes each. Couples not interested in becoming certified teachers may either practice only with their partner, or join in the selection process to experience and learn with others. Sexual intercourse is not a part of these practices!
